

May 20, 2007 ~ National Medical Transcriptionist Week

Outsourcing Solutions Inc. celebrated National MT Week by sending a special gift to over 500 OSi MTs. OSi showed appreciation by making donations in each MT's honor to the Susan G. Komen Breast Cancer Foundation to help support their many efforts in research and education. OSi feels fortunate to donate towards this important cause as many family, friends, and co-workers have been affected by this disease.

Each OSi MT also received educational information about breast cancer awareness and an OSi National Medical Transcriptionist Week t-shirt. It is because of talented MTs that OSi continues to grow, and they are each truly appreciated.
